LETTER OF RECOMMENDATION

It is my pleasure in writing this letter of recommendation for Aditya to pursue his higher studies at your university. I have known him well over the last four years as my student.

He has demonstrated interest in the topic throughout. The fact that he did well in the classes I presented on Computer Programming, Machine learning, Cryptography & Network Security, and E-Commerce shows that he was interested in the topics I covered. Being a student of computer science, I was much impressed by his significant interest in computational abilities. He is consistently dedicated, diligent, and honest in his job

I am confident that his solid foundational knowledge, genuinely extraordinary ability to apply theory to real-world circumstances, and strong desire to stay current with new knowledge in his field of study will be beneficial to him in the career he is pursuing. It is great how he interacts with the teacher and how respectfully he treats the elderly.

With all of these accomplishments under his belt and a firm foundation, I have no doubt that he will succeed in all of his future endeavors. Therefore, Mr. Aditya has my recommendation for your university, and I would be pleased to address any questions you may have.

Regards

Er. Lal Chand

Assistant Professor
